ABOUT ME

I am a Front-End developer with experience in React and TypeScript, specialized in Clean Architecture. I stand out for my communication skills and my ability to work in teams using the SCRUM methodology, always dedicated and committed to creating solid and visually appealing solutions for the client. I am always enthusiastic about facing new challenges and eager to learn and grow both personally and professionally.

EXPERIENCE

February 2024 – October 2024
Junior Front-End developer – [BPOLabs Solutions](#)

- Worked on a project similar to Twitter ([SENA Threads](#)) using React with TypeScript.
- Implemented "Clean Architecture" principles to make the project more scalable and maintainable.
- Implemented global state management with [Zustand](#) to handle Back-End functions and responses.
- Used Tailwind and several CSS frameworks like [NextUI](#) prioritizing "Mobile First" development to ensure the app looks great on any device.
- Joined the company's Front-End project "ConnectUp" to develop a module with functionality similar to Twitter.
- Worked on the logic for interacting with the Back-End and handling permissions from the Front-End for specific Endpoints using interceptors and other [Axios](#) functions.
- Worked on making the module responsive so that the content adjusts to different device resolutions.

EDUCATION

Servicio Nacional de Aprendizaje (SENA) Technologist in software analysis and development

- MERN Stack
- Worked on the Back-End of my formative project ([RPM - Rutas Para Moteros](#)) using Node.js, Express, and MongoDB.

SKILLS

React.js	TS/JS	HTML5/CSS3
TailwindCSS	Axios	Figma
Postman/Vercel	Clean Architecture	Git/GitHub
Node.js/Express.js	MySQL/SQL Server/MongoDB	ClickUp
